## PRESIDENT'S LETTER

Hello and Welcome to Competition Season 2022!

There is a lot that goes on at our club that very few people are aware of. Match Directors and others are out there picking up and dropping off when it conveniently works into their schedule. On a recent Thursday as I was leaving work a Match Director called me from the range because he could not get in his target shed and his car was completely jammed full of match supplies. Sometime last fall the lock had failed, Range & Grounds had to take a piece of tin off the building to get in so he could replace the lock and since he didn't know the original combination he picked another. I called R&G because I didn't want to guess at the combo, turns out R&G wasn't sure either but; guessed right first time! Having been pretty involved for the last 10 years I have a list of almost all the combinations and most of the keys, I think.

Cameras. We have them. New camera installations at the Bullseye Range/Pistol Pits, Benchrest Range, and Smallbore Range were supposed to take 3 days; from the range closure emails you may have noticed it took

a little longer than anticipated. You may have also noticed that our VP Information Technology and Treasured Stuff, aka Big Brother, is slightly sarcastic from those emails. Our Vice President had to change jobs he took so much time off to supervise the installations. As of April 30, the camera systems are all up and running with what I have been told is superb clarity. I do apologize if the extended range closures got in your way. We have a new member, Patrick Franz, who was instrumental at getting our system upgraded and the new cameras integrated and adjusted; he was onsite for the installation almost the whole time. VP Membership was also heavily involved with this installation, may have just been to keep the Veep off the computer; not sure. MRPC volunteers have well over 100 hours of making this happen. We invested in the cameras because of a very small group of members who don't respect the rules. I know there's a group of 3 or 4 guys using rifles in the pistol bays for 3 gun style practice weekday afternoons; against the ammo rules. I find evidence of people plinking cans in the pistol bays every month; against the target rules. Each of you signed your name you would follow the club rules, honor you pledge please. There are range specific rules posted on each range. There are complete rules posted online and printed in the clubhouse. If you have specific questions about rules call me, the fewer rules broken the less likely anyone is to get hurt.

Something the cameras are not going to do is look out for the

people around you. Each of us is a Range Officer and needs to be ready and willing to confront unsafe actions by others. When I use the word confront, I don't mean like a Drill Instructor; try to educate not intimidate. If you get pushback get a name off their badge, car description, date, time and call me. On the Benchrest range and calling a cease fire? Make sure everyone has an ECI, Empty Chamber Indicator, in the action before heading down range. It's a good idea to point out the rules when a cease fire is called; you might say, "Everyone have an ECI in place? Anyone not going down range is not to handle firearms and stay behind the yellow line". By stating the proper procedure mistakes can be dramatically reduced and someone may learn something. At SCCA, Multi-gun, or USPSA matches there is an RO right behind you when you have a loaded gun. When you finish a stage the RO is there to help you be safe by stating: unload, show clear, if clear, hammer down, holster. I have seen experienced and inexperienced competitors not pay attention to what they are doing after a stage and when they hammer down BANG. At that point the RO starts his speech again and you'd better believe the DQ'd competitor pays attention this time, but it's too

late. Play by the Club rules, don't get sent home early, no refunds.

If you are looking for a pistol or PCC discipline you should come out to Steel Challenge on the 3rd Saturday, arrive by 8:30 am. Steel Challenge is run like most pistol matches where squads move stage to stage in order. Steel Challenge sets up 5 stages each with 5 targets. You shoot each stage 5 times. You can shoot 2 guns during the match, not at the same time. I am really enjoying Steel Challenge and even won the Rimfire Iron sights division at one match! 22's start at a low ready and other pistols use holsters from the surrender position making it a great way to hone those gun handling skills.

May is going to be a really busy month, there are 42 matches and 7 other events scheduled at the club. Please keep an eye on the calendar and your email; this time of year storms can cause range closures for damage or cleanup.

I want to thank the Match Directors and their disciples for getting us off to a great start with a lot of effort at clean up and organization. You BOD guys are awesome too!

Hope to see you at the club and not on the cameras!

John Smith  
President

# BULLSEYE PISTOL LEAGUE

Our Pistol League is held every Thursday, April thru Mid-September. Matches start at 10:00 AM, and 7:00 PM at the upper Bullseye Pistol Range. Registration closes 15 minutes before each match. Pistol League is an opportunity for you to develop your pistol shooting skills, all while learning the sport of Precision Pistol. These skills are transferable to all other pistol disciplines.

The basic shooting skills are sight alignment and trigger control refined with stance, grip, breath control, and follow-through. All shooters use these skills in other pistol matches, or at the Multi-Purpose Range. But, in Pistol League, these are the foundation for Precision Pistol shooting.

For some this weekly match may seem intimidating, but recreational shooters are welcome to this low-key event. Our experienced shooters are happy to coach and encourage

score and masking tape for repairing targets when necessary. We also offer an optional abbreviated Revolver Match for an additional \$1.00.

This NMC is fired twice. The first is fired using a .22 Rimfire pistol. The second can be fired with a .22 Rimfire or any Centerfire caliber pistol. Between each sequence, a cease-fire is called, shooters go downrange to score a target and affix a new target. The match takes approximately one hour to complete.

The optional Revolver match takes approximately 30 minutes to complete and there is only one NMC fired as outlined above.

The morning match starts at 10:00 AM followed by the optional Revolver match. The evening optional Revolver

## MATCH FEES:

Morning or Evening \$4.00 non-member, \$3.00 member

Morning or Evening + Revolver \$5.00 non-member, \$4.00 member

Morning + Evening \$5.00 non-member, \$4.00 member

Morning + Evening + Revolver \$7.00 non-member, \$6.00 member

The course of fire is a National Match Course (NMC) which is as follows:

Sequence	Distance	Time	Number of Rounds
Slow Fire	50 yards	10 Minutes	10
Timed Fire	25 yards	20 Seconds	2 strings of 5
Rapid Fire	25 yards	10 Seconds	2 strings of 5

recreational shooters. Most shooters fire this match one handed, but recreational shooters are welcome to use two hands.

Your welcome to compete in as many matches as your schedule and ammunition stockpile will allow. The match fee includes targets and backing boards. All competitors must wear eye and ear protection. Empty Chamber Indicators (ECI) are a requirement. If you don't have an ECI we will give you one at no cost. Please bring a staple gun for posting your targets, a clipboard and a pen or pencil for keeping

match starts at 6:15 PM with the main match starting at 7:00 PM. Please arrive at least 15 minutes before the match to sign-in, set up your target frame, backing board and first target. Parking is available adjacent to the Firing Line. We welcome shooters of all abilities, ages and handicaps.

Hope to see you on the range to enjoy this match.

If you have any Pistol League questions please contact Kevin Donahoe: [pistol\\_league@miamirifle-pistol.org](mailto:pistol_league@miamirifle-pistol.org)

## NEWS AND REMINDERS

### Video

Intro video added to Steel Plate Shooting 7/7/22.

### Varmint League

Fees for Varmint League have been raised to \$15 for summer and winter.

### Precision Pistol and Bullseye Pistol League

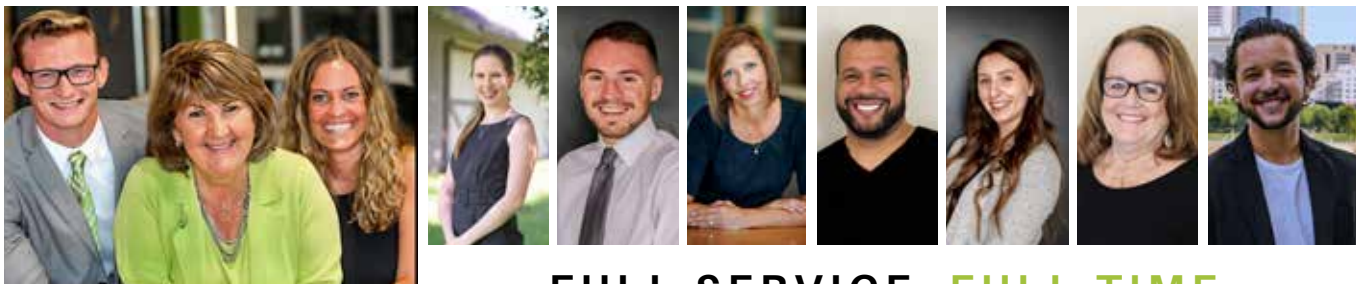

Precision Pistol and Bullseye Pistol League have nice introductory videos at the top of their pages. Same video – different titles.

### Precision Pistol and Bullseye Pistol League

Pistol League and Precision Pistol had an amicable divorce. They are now listed separately and Pistol League reverted to his maiden name – Bullseye Pistol League on 5/1/22.
